INTRODUCTION

This report presents summary data on the 100 companies, and their subsidiaries, receiving the largest dollar volume of Department of Defense (DoD) prime contract awards during fiscal year (FY) 1997. Table 1, page 9, lists the 100 companies in alphabetical order and gives their associated rank. Table 2, page 11, identifies the parent companies in rank order, with their subsidiaries, and gives the total net value of awards for both the parent company and its subsidiaries. In many cases, the parent company receives no awards itself, but appears on the list because of its subsidiaries. Table 2 also shows what percentage of the total awards each company's awards represent, as well as the cumulative percentage represented by all companies.

Table 3, page 27, lists the top 100 companies DoD-wide in rank order and breaks the totals into three categories of procurement: Research, Development, Test, and Evaluation (RDT&E); Other Services and Construction; and Supplies and Equipment. Table 4, page 29, lists the top 50 companies for each of the Reporting Components in rank order, and by category of procurement.

Information from this publication can be found on the World Wide Web under <http://web1.whs.osd.mil/peidhome/procstat/top100/top100.htm>.

NOTES ON COVERAGE

Data in this report reflect the net value of both debit and credit procurement actions over \$25,000; e.g., the value of a terminated contract, or other downward adjustment to a contract, is deducted from a firm's total award amount, while modifications and other positive adjustments are treated as increases. Procurement actions include definitive contracts, the obligated portions of letter contracts, job orders, task orders, delivery orders, and any other orders against existing contracts. Research and development, services, construction, and supply and equipment contracts, worldwide are included.

The report does not include those parts of indefinite quantity contracts that have not been translated into specific orders to business firms or those contracts that have not yet become mutually binding agreements between the government and the company. The company totals do not include contracts made by other U.S. Government Agencies and financed with DoD funds or contracts awarded in foreign nations through their respective governments.

HIGHLIGHTS

DoD prime contract awards over \$25,000 totaled \$116.7 billion during FY 1997, \$2.9 billion less than in FY 1996. The 100 firms, and their subsidiaries, receiving the largest amount of DoD contracts in FY 1997 received \$67.9 billion, or 58.2 percent of all awards, primarily for aircraft, missile/space systems, ships, and electronics and communications equipment. In FY 1996, the top 100 companies received \$69.9 billion, which represented 58.4 percent of all awards.

Exhibit A below, shows that the first five companies received 26.3 percent of the total received by all companies in FY 1997, compared with 25.8 percent during FY 1996. The company ranked as number one during FY 1997, Lockheed Martin Corporation was also ranked as number one in FY 1996, with awards of \$11.6 billion during FY 1997, compared with a total of \$12.0 billion during FY 1996. The smallest total amount received by a company in the FY 1997 Table 2 was \$124.9 million, compared to \$117.5 million in FY 1996.

Changes in the Top 100 Companies, FY 1996 to FY 1997

As shown in Exhibit B below, 23 companies which did not appear on the list in FY 1996 are among the top 100 companies in FY 1997. The companies that made the FY 1996 list but did not appear on the FY 1997 list are also shown in Exhibit B. Companies are considered as appearing on the list in both fiscal years despite mergers, acquisitions, divestitures, and name changes if a major component of a newly constituted company, or the newly constituted company itself, made the list as a component of a company in the top 100 in the prior year.

Eight of the 23 companies listed in FY 1997, but not in FY 1996, were included in the top 200 for FY 1996. Also, 11 of the 22 listed in FY 1996, but not in FY 1997, remain in the top 200.

Primary Procurement Categories of the Top 100 Companies

Although the contract work of many companies on the list includes more than one procurement category, in Exhibit C below, each company has been assigned to the procurement category that accounts for its largest dollar volume of DoD awards; for example, General Electric Company is a multi-industry company, producing electronic and communications equipment as well as industrial and consumer products. For the purposes of this exhibit, it has been assigned to "Aircraft," the procurement category accounting for its largest dollar volume of DoD contract awards.
